

## **Exceptional procedures update**

Immigration Bureau or “Dirección General de Migración y Extranjería” (from now on DGME) decided to change the exceptional procedures applicable for DIMEX delivery delays. Here is a brief summary:

- The procedure to speed up the delivery of the DIMEX may be used for DIMEX that were expected to be delivered at January 23<sup>rd</sup> or before. Through the oficial Facebook page of DGME they will be constantly updating this item according to their availability.
- About the appointment for “Telegramas” (telegrams), was indicated to us by the DGME that can be used to ask for the application status but won’t be taken into account to accelerate the process.
- There’s an official statement issued by CCSS, in which they stablish that an expired DIMEX can be taken into account for any request at the Social Security Services as in force for the next three months form the DIMEX renewal appointment, in which case you must present your expired DIMEX, the renewal proof and the CCSS Official Statement.
